Promotions: Why Engineers Need to Write Well
In a field that seems to be ruled by numbers, a well-written word will improve an engineer’s opportunities for promotions. When an engineer is properly able to write down what she has accomplished, in terms of research, completed...

Block Quotes:
If using a quotation more than four lines long, do not use quote marks. Instead, indent the text another half inch. This is best done by adjusting the ruler at the top of the page.

Example:
...different types of immunity. Mann develops this further:
Duffy negativity is an example of inherited immunity, available only to people with particular genetic makeups. Another, more famous example is sickle-cell anemia, in which a small genetic change ends up deforming the red blood cell, making it unusable to the parasite... (131)

Double Spacing:
Microsoft Word Software: Within the Home tab, in the Paragraph section, click the icon with arrows pointing up and down to the left of horizontal lines. Select 2.0 to double space the whole paper.

Word Online (TTU Student Version): Click the three dots (…) that shows More Paragraph Options when your cursor hovers over it. Choose Line Spacing, then 2.

Google Docs: Click the icon with arrows pointing up and down to the left of horizontal lines that shows line spacing when your cursor hovers over it. Choose Double.

### General Tips for MLA

- Avoid using the full title of a reference in the body of your paper. This is what the Works Cited page is for. X Charles C. Mann suggests in his book **1493: Uncovering the New World Columbus Created**, that coins were uncommon in ... (117).

  - Charles Mann suggests coins were uncommon in ... (117).
- Many online articles not from peer-reviewed journals will not have page numbers. In this case just omit the page number, but be sure to use the author’s name so your reader can find your source in the Works Cited.
- For MLA in-text citations except block quotes, the **end punctuation** mark comes **AFTER** the closing parenthesis. See above chart for examples.
MLA: Works Cited

What to include in a citation:

- In general, the more information you can include the better. You want your readers to be able to access your sources if they want to read them for themselves.
- No city of publication is generally required unless your source was published before 1900 or if your source was published in more than one country that would lead to variations in the text. For example, the use of British vs. American spelling of words would create differences in the text and therefore require the inclusion of the city of publication (MLA 51).
- Not all publications will have all the containers/fields recommended by MLA. If your source does not have an editor or URL for example, just skip that option.

General order of information, including punctuation:

Author. “Title of source.” Title of container (e.g. journal, magazine), Other contributors (e.g. editors, translators), Volume, Number, Publisher, Publication date, Location (e.g. page numbers, URL, building name or address where lecture was held).

Titles of books, journals, magazine, websites, etc., are italicized. Chapter titles, lecture titles, episode titles, etc., are surrounded by quotation marks. Note that the end quote mark comes AFTER the period.

Tips for making a hanging indent:

Microsoft Word Software: Select the sources you are ready to format. On your Home tab, click the arrow to the right of the word Paragraph (it is pointing down and to the right). This will open a new menu. Look for the Indentation section and the option Special. Click the Special dropdown and select Hanging.

Word Online (TTU Student Version): Click on downward-pointing triangle to the right of the icon that had horizontal lines and a backwards ‘P’ (Paragraph icon). Click on Special Indent. Click on Hanging Indent.

Google Docs: On the top ruler there is a rectangle that shows the words First Line Indent and the downward-pointing triangle that shows the words Left Indent. Leave the First Line Indent rectangle at the 0.00 mark on the ruler. Slide the triangle half and inch to the right.
